

Let your workers off from work on May Day.

Or else.

We are forced to sell our bodies, skills and time to survive. Every day we work, and every day you squeeze your profit from our labor.

In honor of the rebellions of May Days past, this day belongs to us. But our desires extend far beyond just one day. We won't stop until there is no such thing as a boss, until there is no such thing as work.

If you are an employee and your employer wants you to work on May First, call or text the tip line at 510.610.2512 or e-mail fireyourboss@hushmail.com to shut them down.

May First: Global General Strike No work. No school. No business.
