

The Road to Single-Payer:

Where are we now, and where do we go from here?

As the basic flaws of the Affordable Care Act become increasingly obvious, more people are demanding a truly universal healthcare program based on single-payer financing. With its Healthcare as a Human Right campaign, Progressive Democrats of America has joined the movement now active in many parts of the United States.

Single-payer will not happen by itself. At our March 27 Forum, leading single-payer activists will describe how their organizations are working to bring about real healthcare reform in the US and how we can support their efforts.

Thursday, March 27 • 7:00 PM
