"There are Solutions": Hear from 5 Green Party Candidates for the June 3rd Election

The Green Party is the largest political party in the world. In other countries, the candidates are included in all of the debates and are regularly elected to local, state and federal offices. Green Party candidates do not ever take money from corporations.

In the U.S., Green Party Candidates are routinely blocked from participating in debates in and the media ignores their press releases. There are 58 Greens currently in elected positions in California but none of them are at the state level.

Come hear what the media doesn't want you to hear. You will be delighted and amazed that there are some very basic solutions to our many serious issues right now, as well as the people who know how to carry out those crucial ideas.

Time will be allotted for a Q&A, group discussion and announcements.

OccupyForum does not endorse any political parties, or the political system, but we are fascinated to hear the ideas of the people above!

Donations to OccupyForum appreciated; no one turned away.
