

Shame on Feinstein

**An Open Letter to Senator Feinstein
Deploring Her Persistent Denial of the
Current Crisis in Surveillance Policy

Summary: We, the constituents of Senator Dianne Feinstein, are dismayed and embarrassed by her decision to defend unconstitutional surveillance. As chair of the Senate Intelligence Committee, she is required to oversee data surveillance to protect her constituents and all Americans. Instead, she has decided to use this moment of crisis to expand surveillance powers to include all bulk data collection. Feinstein has betrayed our trust and support that has sustained her for decades. To regain that trust, she must make amends by resigning as chair of the Senate Intelligence Committee and withdrawing her NSA legalization bill.
