

# **Protest Big Pharma!**

## **Public Health, Not Corporate Wealth!**

The Labor Action Committee To Free Mumia Abu-Jamal, together with the Oasis Clinic in Oakland, urges you to support this demonstration to protest the outrageous price-gouging of Big Pharma corporations, like Gilead Sciences! Corporations such as Gilead hike-up the cost for essential, life-saving medications such as the cure for the deadly Hepatitis-C disease (HCV), in order to reap huge profits.

## **Join us at Gilead Sciences' Headquarters!**

**333 Lakeside Drive, Foster City**

**12 Noon, Friday April 1st**

**Public transportation is available --**

**Take BART Richmond/Daly City line to Milbrae Station,  
transfer to Caltrain Shuttle to 353 Lakeside, then walk to 333 Lakeside Dr.**

One pill a day for 12 weeks does the trick to cure Hepatitis-C with a 95 percent success rate. But Gilead charges \$1,000 per pill, or nearly \$100,000 for a full course of treatment!! Gilead Sciences, the "owner" of Harvoni, which is the effective new cure for HCV, did not develop this cure: it bought another company! Now its profit gouging threatens many thousands of lives! Obama Care does not protect against Big Pharma's outrageous price gouging!

Nearly 5.2 million Americans are infected with HCV, according to the Center for Disease Control. And political prisoner Mumia Abu-Jamal is among as many as 700,000 prisoners who are victims. Prisoners who are infected with Hep-C are among the least likely to receive the newly available cure for the disease, due to both the exaggerated price, and the refusal of prison authorities to provide proper health care for inmates! Prisons are killing them by medical neglect and mistreatment! And corporations are exploiting the rest of us, except in some countries, which enforce lower prices.

**WE DEMAND: PUBLIC HEALTH, NOT CORPORATE WEALTH!**

***NO EXECUTION BY MEDICAL NEGLECT! • FREE TREATMENT FOR HCV-INFECTED PRISONERS AND OTHERS NOW! • JAIL DRUG PROFITEERS, FREE MUMIA!***
